* Please Note: The Government cancelled all GCSE and other examinations for 19/20 and 20/21 academic years and used a teacher assessed approach. The school was in a strong position to support teachers across all subjects in both years and was able to present staff with a rigorous and robust process to making their teacher assessments in an evidence based manner that reflected the efforts of our students. The 2020 Exam Grades are the higher of the Centre Assessed Grades (*CAGs) submitted by Penair and a nationally calculated Exam Board grade. The 2021 Exam Grades are Teacher Assessed Grades (**TAGs) submitted by Penair. **These are not directly comparable with previous years.**
